

## **NORTHWOOD POOL OPENING**

### **SAFETY PLAN**

**JUNE 2020**

We believe swimming, like walking, hiking, running, and cycling, is a critical healthy activity within our communities. Swimming does not require direct contact. As with all exercise and activity at this time, swimming must comply with standards for social distancing and safety within aquatic facilities. The CDC has indicated that there is no evidence the disease spreads through treated water. Proper operation and maintenance (including disinfection with chlorine and bromine) of these facilities should inactivate the virus in the water.
