The Town of Rutland Selectboard is requesting quotes for a replacement heating system for our Town Highway Garage located at 339 Northwood Park Road Rutland, VT 05701.

Project Details and Scope

- There is presently a Columbia Boiler brand waste-oil furnace installed.
- There are 2 heating oil supply tanks installed. One tank contains waste oil, the other is #2 oil.
- The current furnace provides hot water for radiant floor heating.
- The current furnace has required extensive, sometimes daily maintenance to keep it running.

Bid Request

- We are requesting bids to replace the current waste oil furnace system with a new furnace which will only run on #2 heating oil.

Bids should include:

- Documentation showing the proposed furnace is correctly sized for our facility and use.
- Documentation showing the new furnace will be installed as a fully functioning system.
- Cost for a second #2 oil storage tank should be included, or a proposal to clean and reuse the existing waste oil tank for #2 oil.
- An overview of expected furnace maintenance tasks and schedule.
- Complete warranty information for all new hardware.
- Full cost of installation, removal of items replaced, and the timeline for installation.
- Any other relevant information.

Contact Bill Sweet at Town Hall at 802-773-2528 x 3203 or Walter Tripp at our Highway Garage at 802-353-0540 with any questions on the project, or to schedule a time to visit the Highway Garage. Please mail or hand-deliver your quote by June 15th to our Town Hall for review by the Selectboard at the June 21st meeting.

The Town of Rutland Selectboard reserves the right to reject any or all bids/quotes in part or whole.
